LLC

Residential Roof Repair

RESIDENTIAL PRICING:

- Minimum Charge \$225.00 + tax = \$243.00
- Labor Rate \$85.00/hour/man + tax
- Truck Charge \$20.00/ each job in addition to materials and labor
- Travel charge outside T/C area \$1.00/mile (Truck+2 mech)

Procedure:

- A two-man crew is always sent for safety reasons.
- Roof repairs will be made on a time and materials (T&M) basis.
- Labor rate is per man hour, not crew hour.
- We cannot give a quoted price for repairs because more often than not there are several contributing factors to a roof leak that cannot be determined until that area is taken apart for inspection.
- Not all leaks coming from the roof area are the result of a defective roof. For example, a leak around a chimney may not be a roofing problem at all but rather a problem with the masonry work.

Please Note:

- Repairs made on an existing roof are **NOT** covered under any expressed or implied guaranty for any length of time.
- This does **NOT** necessarily mean the issue will get repaired the first time we make an attempt at the repair. Other repair attempts and expense may be necessary.
